PART IV: STATISTICAL REPORT ON HOUSING CHARACTERISTICS AND CONDITIONS

August 2010
Addis Ababa

FOREWORD

Statistical data that reflect the socio-economic and demographic conditions of the residents of a country are useful for designing and preparation of development plans as well as for monitoring and evaluation of the impact of the implementation of the development plans. These statistical data include population size, age, sex, disability and orphanhood statuses, literacy and education, economic activity, marital status, migration, fertility, mortality, housing characteristics and conditions…etc. In order to fill the gap for these socio-economic and demographic data need, Ethiopia has conducted its third National Population and Housing Census in the months of May and November 2007.

The 2007 Population and Housing Census of Ethiopia was conducted under the auspices of the Population Census Commission that was established by a proclamation No. 449/1997. The Commission is chaired by the Deputy Prime Minister and the members of the commission were drawn from various relevant Ministries, Regional State Representatives, House of Federation, National Electoral Board and the Central Statistical Agency, serving as the Office of the Census Commission (Secretariat). According to this proclamation, the processing, evaluation and analyses of the data collected in this census as well as its dissemination are the major responsibilities of this office. Hence, Statistical Reports of the Census for Amhara Region present results in four separate parts:

Part I: Population Size and Characteristics;

Part II: Educational Characteristics and Economic Activity Status;

Part III: Population Dynamics (Migration, Fertility, & Mortality conditions of the population); and

Part IV: Housing Characteristics and Conditions.

Thus, the Office of the Population Census Commission is pleased to present the census report entitled “The 2007 Population and Housing Census of Ethiopia: Statistical Report for Amhara Region; Part IV: Housing Characteristics and Conditions” for the users. Subsequently, another report which deals with detailed analysis of the result of the 2007 Population and Housing Census data is in the process of being prepared and will also be prepared and printed soon.

Before the conduct of a census enumeration, a number of preparatory activities had been carried-out. Among the major census preparatory activities was the conduct of the Population and Housing Census Cartographic Work. During this census cartographic work urban and rural kebeles were sub-divided into enumeration areas, each having 150-200 housing units and

households, respectively. About 4-6 contiguous enumeration areas were made to form one supervision area. In this exercise for each enumeration and supervision area maps have been prepared.

During the census enumeration, each enumerator was given a map of an enumeration area along with other census documents and he/she was responsible to record all persons and households in that enumeration area without omission and duplication. One supervisor was also assigned to a supervision area and was responsible for ensuring the quality of the information collected in the area of his/her jurisdiction. Unlike the previous censuses, in this census enumerators were primary school teachers while supervisors were secondary school teachers.

It is to be noted that the Population and Housing Census is a huge nation wide operation which could not be undertaken by a single organization. Thus, full cooperation and assistance of government and non-government organizations, donor agencies and the general public have been obtained for the 2007 Population and Housing Census.

The office of the Population Census Commission is therefore, very grateful to the Government of Ethiopia for its huge financial and administrative supports. The office is also grateful to the development partners particularly; the United Nations Fund for Population Activities (UNFPA) and the Department for International Development (DFID) for their generous financial, logistics and technical supports. Thanks are also due to the United Nations Development Program (UNDP), the Embassy of Japan, Italian Cooperation, United Nations Children's Emergency Fund (UNICEF), as well as the Dutch and Irish Governments for their substantial financial support.

Finally, the office would like to express its appreciation for the elementary and secondary school teachers who participated in the data collection and supervision activities; the staff members of the Central Statistical Agency for their invaluable contributions throughout the census operations and also more importantly, the general public as well as the administrators at all levels, who were critical to the success of the census enumeration.

The office hopes that the data contained in this part of the Statistical Report will be utilized by all data users for various development planning.

Samia Zekaria
Member and Secretary,
Population Census Commission

Where Persons also Spend the Night in Rural Areas: 2007……..260

CHAPTER I

INTRODUCTION

This chapter presents an over view of the contents of the census report entitled “The 2007 Population and Housing Census of Ethiopia: Statistical Report for Amhara Region; Part IV: Housing Characteristics and Conditions”. This part presents the major statistical data on housing characteristics, conditions and stocks found in the region that are essential to policy makers, planners, administrators, researchers and other data users in a table format. The statistical Report for the region has four parts. Other parts of the report include: Part I - Statistical Report on Population Characteristics; Part II - Statistical Report on Educational Characteristics and Economic Activity Status; and Part III - Statistical Report on Population Dynamics (Migration, Fertility and Mortality).

In Amhara Region the census has covered the then existing total number of 3,379 rural and urban Kebeles which were sub-divided into 21,234 enumeration areas. The May 2007 Population and Housing Census was the third Population and Housing Census. The first Population and Housing Census was conducted in May 1984 whereas the second Population and Housing Census of Ethiopia was conducted in October, 1994. In this third Census, twenty eight of May, 2007 was used as the census day or census reference day. The census has counted people on dejure and defacto basis. The dejure population comprises all the persons who belong to a given area at a given time by virtue of usual residence, while under defacto approach people were counted as the residents of the place where they found (Shryock et al., 1976). In the census, a person is said to be a usual resident of a household (and hence an area) if he/she has been residing in the household continuously for at least six months before the census day or intends to reside in the household for six months or longer. Thus, visitors are not included with the usual (dejure) population. Homeless persons were enumerated in the place where they spent the night on the enumeration day. The 2007 census counted foreign nationals who were residing in the region. On the other hand, all Ethiopians living abroad were not counted.

In this census, the questionnaires that were used to collect information were generally prepared in Amharic. However, English translation of the short questionnaires was used to collect data from the foreigners residing in Amhara Region.

In the census two types of questionnaires were used:

i) Short Questionnaire (Appendix II) and
ii) Long Questionnaire (Appendix III)

Unlike the previous censuses, the contents of the short and long questionnaires were similar both for the urban and rural areas as well as for all regions. But the short and the long questionnaires differ by the number of variables they contained. That is, the short questionnaire was used to collect basic data on population characteristics such as population size, sex, age, language, ethnic group, religion, disability and orphanhood. Whereas, the long questionnaire includes information on marital status, education, economic activity, migration, fertility, mortality, as well as housing characteristics and conditions in addition to those questions contained in a short questionnaire.

The enumerators collected the data and filled-in the census questionnaire by visiting households from door to door. All members of the household were recorded on the same questionnaire if their number is eight or less. Enumerators were instructed to fill-in consecutive questionnaires if the members of the household are more than eight. The type of questionnaire administered to each household depends on whether a household was selected for a long questionnaire or not. The selection procedure was determined by using a systematic sampling procedure as follows. Three days prior to the census day all households and housing units were listed in a separate form designed for the purpose. This list was used to identify the type of questionnaire that was to be administered to the households. One out of five households was systematically selected from the list /following scientific procedures/ to be interviewed using the long questionnaire, while the others were interviewed using the short questionnaire. Residents of hotels, hostels and other collective quarters were interviewed using a long questionnaire whereas homeless persons were counted using a short questionnaire.

Accordingly, information presented in this report that refers to housing characteristics and conditions were collected from sampled households. Similarly, other variables like marital status, educational characteristics, economic activity statuses and population dynamics (fertility, migration and mortality) information were gathered on long questionnaire from sampled households. Even though information on the long questionnaire was collected from a sample of the population, statistical weights were applied to make them represent the entire population. This means, that the figures presented in the statistical tables that refer to housing characteristics and conditions and others do represent the entire population of Amhara Region covered in the census and not only the sampled population.

The fact that the information was collected from a sample of households and not from the entire households does not make the information less reliable. In fact this process is expected to increase the quality of the information collected by reducing the work load that would have been faced if all households were covered using the long questionnaire. In turn, the reduction of the work load improves the quality of the data through facilitating a closer supervision during field work and enabling the timely processing of the data collected.

This report contains two chapters. The first chapter is the introduction of the report. Chapter VIII presents the Housing Characteristics, Conditions and Stocks found in the region. Chapter VIII has a brief description concerning the type of questions asked and the corresponding answer categories, instructions followed by the enumerator while interviewing, basic definitions of concepts, etc. Appendix I presents the list of tables that appear on other parts of the statistical report for the region. Copies of English version- short and long questionnaires in appendices II to III respectively are presented at the end of this report.

It is worth mentioning that due to the use of weights, slight discrepancies between various tables may sometimes be observed for some of the data collected using long questionnaire. Since the homeless population comprises very small proportion as compared to the total population of the region tables that deal with marital status exclude the number of homeless population and the discrepancies are very small. Homeless persons were enumerated using only a short questionnaire because the enumeration took place at night at the place where

they were spent the night, and it was not convenient to apply long questionnaire in such situations.

General Information

The following points are worth mentioning regarding the contents of the statistical report, the supply of the compiled statistical data in print and digital copies and also concerning access to raw data:

a) The majority of the tables containing statistical data on population characteristics, disability and orphanhood statuses, educational characteristics, economic activity status, fertility, mortality, migration and housing characteristics and conditions were aggregated at region and zone levels and only few selected tables are produced at wereda level in printed reports. These will be provided in print and digital forms.
b) More detailed information up to wereda and town levels will be provided in digital form on CDs.
c) Apart from these, raw data as well as further detailed cross tabulations can be obtained from the Census Commission Office up on the user's request and based on its access policy with regards to the raw data.

CHAPTER VIII

HOUSING CHARACTERISTICS AND CONDITIONS

Definition of Terms

A ***housing unit*** is defined as a separate and independent place of abode, either intended for habitation or not intended for habitation but occupied as a living quarter by a household at the time of the census. A housing unit may at the time of the census be occupied by one or more households or may be used partly for living and partly for establishment.

Residential Housing Unit is defined as a housing unit used only for habitation at the time of the census.

Partial Residential Housing Unit is defined as a housing unit used for habitation and establishment at the time of the census.

A ***room*** is defined as a space enclosed by walls reaching from the floor to the ceiling or roof at least to a height of two meters and having an area of at least four square meters (i.e. a size large enough to hold a bed for an adult). Except for bathrooms, toilets and passage ways all other rooms found in the housing unit were considered as rooms.

A ***kitchen*** is defined as a room primarily used for cooking meals. However, it worth mentioning that especially in most rural areas of the country, due to lack of adequate rooms or space in the housing unit, some persons or some livestock may also spend the night in the kitchen.

A ***modern kitchen*** is defined as a kitchen that has piped water and a sink.

The 2007 Population and Housing Census questionnaire included a detailed set of housing questions that were administered both in urban and rural areas. Information on housing characteristics and conditions were collected on the long questionnaire for all occupied residential and partly residential housing units. When a housing unit was

occupied by more than one households enumerators were instructed to collect housing units information only from the sampled household.

In the 2007 Population and Housing Census the following housing units information were collected:

1. bathing facility,
2. toilet facility,
3. whether a housing unit has traditional or modern type of kitchen,
4. source of drinking water supply,
5. source of power for lighting,
6. type of fuel used for cooking,
7. availability of radio, television and telephone sets,
8. number of rooms,
9. type of waste disposal,
10. whether domestic animals spent the night in the room where member of the household spend the (census) night,
11. whether there was a separate room in the housing unit that was used mainly as kitchen,
12. type of building,
13. type of construction material of walls, roofs, floors, and ceilings,

The census also collected information regarding the status of tenure of housing units. Tenure refers to the arrangements under which the household occupied its living quarters. A housing unit is said to be owner occupied, if the occupant household owns it and it is free from rent. Similarly, a housing unit is considered as rented if the household living in it pays rent to a private individual or to Kebele office or to an Agency for the Administration of Rented Housing or to other organizations. There are also housing units occupied by households paying difference in rent. These are households that own another housing unit elsewhere that is rented for a lesser or greater rent compared to the rent of the housing unit the household is occupying at the time of enumeration.

The data on number of rooms per occupied housing unit and number of persons living per room has been also calculated. Here it should be noted that the averages were calculated for conventional population and conventional housing units. During the presentation of the result, some tables refer to urban areas only, while some others may refer to both urban and rural areas. A few tables refer to rural areas only.

During the 1994 Population and Housing Census different census forms with housing questions were employed in the rural and urban parts. The data on housing collected in the urban areas was relatively detailed while the data collected in the rural areas was limited. In the 2007 Population and Housing Census, however, the same type of housing questions was employed. Also, the census collected information whether two or more households shared some toilet and kitchen facilities.

APPENDIX I: LISTS OF TABLES ON OTHER PARTS OF THE STATISTICAL REPORT

PART I

CHAPTER II POPULATION CHARACTERISTICS

2.1 Population by Urban-Rural Residence and Sex: 2007

2.2 Population of Towns by Sex: 2007

2.3 Population by Type of Resident, Sex, and Five Year Age Group: 2007

2.4 Population by Type of Resident and Sex: 2007

2.5 Persons, Households, and Housing Units for Conventional Household and Persons and Households for Non-Conventional Households, with Households per Housing unit for Conventional Households: 2007

2.6 Persons and Households by Urban-Rural Residence and Household Size, with Percent Distributions and Averages: 2007

2.7 Population Living in Conventional Households by Relation to Head of Household, Sex, and Five Year Age Groups: 2007

2.8 Population by Urban-Rural Residence, Sex, and Five Year Age Group to 95+: 2007

2.9 Population by Urban-Rural Residence, Sex, and Single Year of Age: 2007

CHAPTER III OTHER POPULATION CHARACTERISTICS

3.1 Population by Urban-Rural Residence, Sex, and Ethnic Group: 2007

3.2 Population by Urban-Rural Residence, Sex, and Mother Tongue: 2007

3.3 Population by Religion, Sex, and Five Year Groups: 2007

3.4 Population by Religion, and Sex: 2007

3.5 Persons 10 years old and older by Marital Status, Sex and Age: 2007

CHAPTER IV DISABILITY AND ORPHANHOOD STATUSES

4.1 Population by Sex, Disability Status, and Five Year Age Group, with Disability Rate: 2007

4.2 Disabled Persons by Type of Disability and Sex: 2007

4.3 Disabled Persons in Towns by Type of Disability and Sex: 2007

4.4 Disabled Persons by Reason for Disability, Type of Disability and Sex: 2007

4.5 Disabled Persons by Type of Disability, Sex and Age Group: 2007

4.6 Population by Sex, Mental Problem, and Five Year Age Group, with Rate of Mental Problem per 10,000 population: 2007

4.7 Children Under 18 Years of Age by Orphan hood Status, Sex, and Age: 2007

4.8 Children Under 18 Years of Age by Orphan hood Status and Sex: 2007

4.9 Children Under 18 Years of Age by Type of Residence, Orphanhood Status, Sex, and Age Group: 2007

PART II

CHAPTER V EDUCATIONAL CHARACTERISTICS

5.1 Population 5 Years Old and Older by Literacy, Sex and Five Year Age Group: 2007

5.2 Population 5 Years Old and Over by School Attendance, Sex and Single Year of Age to 30+: 2007

5.3 Population 5 Years Old and Older by School Attendance and Sex: 2007

5.4 Population 5 Years Old and Over Attending School by Level, Sex, and Single Year of Age to 30+: 2007

5.5 Population 5 Years Old and Over Attending School by Level and Sex: 2007

5.6 Population 5 Years Old and Over by Urban-Rural Residence, Sex, and Highest Grade Completed: 2007

5.7 Population 5 Years Old and Older by Highest Level of School Completed, Sex, and Age: 2007

CHAPTER VI ECONOMIC ACTIVITY STATUS

6.1 Population Aged 10 Years and above by Sex, Economic Activity Status, Age Group and Economic Activity Rates, Urban and Rural: 2007

6.2 Population Aged 10 Years and above by Sex, Economic Activity Urban-Rural Residence and Economic Activity Rates: 2007

6.3 Economically Inactive Persons 10 Years and above by Reason for Inactivity, Urban-Rural Residence, Sex, Age Group and Sex Ratio: 2007

6.4 Economically Active Persons Aged 10 years and above by Age Group, Sex, and Employed, Unemployed and Unemployment Rates: 2007

6.5 Economically Active Persons Aged 10 Years and above by Sex, Employed, Unemployed and Unemployment Rates, Urban and Rural: 2007

6.6 Economically Active Persons of Towns Aged 10 Years and above by Sex, Employed, Unemployed and Unemployment Rates During the Last Seven Days: 2007

6.7 Employed Persons Aged 10 Years above by Employment Status, Urban-Rural Residence, Sex, Age Group and Sex Ratio: 2007

PART III

CHAPTER VII POPULATION DYNAMICS (MIGRATION, FERTILITY, AND MORTALITY)

7.1 Population and Migrants by Sex, Urban-Rural Residence, and Five Year Age Group, with Percent Migrants: 2007

7.2 Migrants by Length of Residence, Urban-Rural Residence, Sex and Age: 2007

7.3 Migrants by Length of Residence, Sex and Age: 2007

7.4 Rural to Urban Migrants and Urban to Rural Migrants by Sex and Age: Sex: 2007

7.5 Reproductive Age of Women by Five Year Age Group, Births During the last 12 Months Prior to the Census, Age-Specific Birth Rates, and Total Fertility Rates (TFRs), by Urban-Rural Residence: 2007

7.6 Women 10 Years Old and Older in Zones by Five Year Age Group and Number of Children Ever Born (CEB), with Total Children Ever Born and Average Children Ever Born per Woman: 2007

7.7 Women 10 Years Old and Older, Children Ever Born, and Children Surviving by Five Year Age Groups, with Average Number of Children Ever Born per Woman and Proportion of Children Ever Born Deceased: 2007

7.8 Population in Conventional Households and Deaths During the 12 Months Prior to the Census by Sex, Zone, Urban-Rural Residence, and Age: 2007

7.9 Women Age 12-49 Years of Age and Deaths of Women 12-49 Years of Age During the 12 Months Prior to the Census, by Urban-Rural Residence and Age-specific Death Rates: 2007

SECTION 5 - INFORMATION ON HOUSING UNIT

To be answered by enumerator

1 Will housing unit information be collected?

- Yes 1
- No 2

2 How many years ago was this housing unit built?

- Less than 5 years 1
- 5 - 9 years 2
- 10 - 14 years 3
- 15 - 19 years 4
- 20 years or more 5

3 How many ROOMS are in the housing unit?

	0	1	2	3	4	5	6	7	8	9
	0	1	2	3	4	5	6	7	8	9

4 What is the main source of DRINKING WATER for the members of this housing unit?

- Tap inside the house 1
- Tap in compound, private 2
- Tap in compound, shared 3
- Tap outside compound/From private tap, public tap, other organisation/(bought or free of charge) 4
- Protected well or spring 5
- Unprotected well or spring 6
- River/Lake/Pond 7

5 What type of TOILET facility does the housing unit have?

- No toilet facility 1
- Flush toilet 2
- VIP Latrine 3
- Pit Latrine 4

If coded 2 - 4 only in Question 5

6 Does the household share the toilet with other households?

- Yes 1
- No 2

7 What type of BATHING facility does the housing unit have?

- No bathing facility 1
- Bathtub private 2
- Bathtub shared 3
- Shower private 4
- Shower shared 5
- Other 6

8 What type of KITCHEN does the housing unit have?

- No kitchen 1
- A room used for traditional kitchen inside the housing unit 2
- A room used for traditional kitchen outside the housing unit 3
- A room used for modern kitchen inside the housing unit 4
- A room used for modern kitchen outside the housing unit 5

If coded 2 - 5 only in Question 8

9 Does the household share the kitchen with other households?

- Yes 1
- No 2

10 What type of FUEL is used for cooking in the housing unit?

	YES	NO
Electricity	1	2
Gas/cylinder	1	2
Kerosene	1	2
Charcoal	1	2
Firewood/Leaves/Sawdust	1	2
Dung/manure	1	2
Bio-gas	1	2
Other	1	2

11 What type of LIGHTING does the housing unit have?

- Electricity/Meter private 1
- Electricity/Meter shared 2
- Electricity from generator (No Meter) 3
- Solar energy 4
- Lantern 5
- Bio-gas 6
- Kerosene 7
- Candle/Wax candle 8
- Firewood 9

12 Does the housing unit have:

	YES	NO
Radio	1	2
Fixed Telephone/Wireless Telephone	1	2
Television	1	2

13 How does the housing unit dispose of SOLID WASTE?

- Collected by Municipality (Public Dump) 1
- Collected by private establishments/individuals 2
- Dumped in street/Open space 3
- Dumped in river 4
- Burned/Buried solid waste 5
- Other 6

14 Do livestock spend the night in the room(s) where members spend the night?

- Yes 1
- No 2
- No livestock 3

15 What is the type of TENURE of the housing unit?

- Owner occupied 1
- Rent free 2
- Rented from Kebele 3
- Rented from agency of rented houses 4
- Rented from other organisation 5
- Rented from private household 6
- Occupied difference in rent 7

For Questions 16 - 20 please mark by observation and/or asking

16 What is the type of housing unit?

- Conventional 1
- Improvised 2
- Mobile 3
- Other 4

17 What is the major material used for the construction of the WALL of the housing unit?

- Wood and mud 1
- Wood and thatch/Wood only 2
- Stone and mud 3
- Stone and cement 4
- Plastered hollow blocks 5
- Unplastered hollow blocks 6
- Bricks 7
- Corrugated iron 8
- Reed/Bamboo 9
- Mud Bricks 10
- Other 11

18 What is the major material used for the construction of the major part of the CEILING of the housing unit?

- None 1
- Fabrics 2
- Bamboo/Reed 3
- Chip wood/Hardboard 4
- Parquet or polished wood 5
- Wood planks 6
- Concrete/Cement 7
- Polythene sheet "Madaberia" 8
- Other 9

19 What is the major material used for the construction of the major part of the ROOF of the housing unit?

- Corrugated iron sheet 1
- Concrete or cement 2
- Thatch 3
- Wood and mud 4
- Bamboo or reed 5
- Plastic/Shera 6
- Asbestos 7
- Other 8

20 What is the major material used for the construction of the major part of the FLOOR of the housing unit?

- Mud 1
- Bamboo/Reed 2
- Wood planks 3
- Parquet or polished wood 4
- Cement screed/Cement screed not applied 5
- Plastic tiles 6
- Cement tile/Brick tile 7
- Ceramic/Marble tiles 8
- Other 9
