Table 6 Part 3 - Average Retail Prices of Goods and Services in Rural Area by Region Yekatit '81 (February '89) ---------- 256-270

../

Introduction

As stated in earlier reports, the Central Statistical Authority launched the Rural Integrated Household Survey Programme (RIHSP) in 1980 with the objective of conducting survey on a wide range of subjects in rural areas. As part of this programme the authority conducts monthly survey of retail and producers' prices in the rural area.

The collection of rural prices started in May 1981 in selected Farmers' Association Areas in 12 regions, exoluding Tigray and Eritrea. This report presents the results of monthly Average Retail Prices of Goods and Services partitioning the previous and commonly used regions into 26 Autonomous/Administrative regions. It provides monthly average retail prices of goods and services for the period September 1988 to February 1989 (Meskerem 1981 - Yekatit 1981 E.C.).

This report is presented in three parts. The first two parts consists of tables on average retail prices of goods and services in nine rural areas each and the third part consists of tables on average retail price of goods and services in the remaining eight rural areas.

This sixth issue updates statistical bulletin number 83 of December 1990. Earlier issues on the same subject are Statistical Bulletin Nos 37, 45, 57, 64 and 83.

../

Objectives

Objectives of the collection of retail prices in rural areas are to:-

1. study the level of Retail Prices;

2. study the disparities between prices at various distribution levels;

3. study changes in the economy;

4. provide data for national accounting and preparation of retail prices index for rural areas.

Scope and Coverage

The scope and coverage of the survey are constantly under review and necessary improvements are effected from year to year in the light of experience of the staff and in an effort to incorporate commodities mostly consumed in the rural area.

Retail prices of selected agricultural and industrial products are collected from retail outlets in Selected Farmer's Association Areas. The major groups of items covered include food, drinks, tobacco and stimulants, household equipments, clothing, footwear, energy, medical care, personal care and effects, education, recreation, building materials. and other goods and services. The number of selected Farmers' Associations vary from region to region and their distribution is given below.

Number of FAs in which Prices Survey was conducted

North Omo	41
South Omo	15
Sidamo	40
Borena	17
Dire Dawa	6
T O T A L	723

Method of Data Collection

The retail prices were collected from major outlets in the selected Farmer's Association Areas or from adjacent areas where the households purchase most of the goods and services for consumption and other purposes. Although retail prices are usually collected from traders, in certain cases the prices were obtained from consumers at the time of purchase. For each item a maximum of three price quotations were collected from three different retailers.

Prices are collected every month of the Ethiopian calendar year. It should be noted, however, that the collection of prices is distributed throughout the month in accordance with the purchasing habits of consumers in the area.

Definition

Retail prices

A retail price is the money cost to the final purchaser of a specified unit of sale. It is inclusive of all sales and excise taxes.

Note:-

1. The average column, in the 3rd part of this report, provides a simple arthmetic average of quotations for the corresponding items in all regions.
2. The minimum that the balance can weigh is 10 grams. Thus items which are sold in small quantities and whose weight fall below 10 grams can not be weighed as accurately as possible and as a result may affect the reliability of the prices of these items in some respect.
3. The 26 Autonomous/Administrative regions are listed according to the "Negarit Gazetta" 48th year No. 16.
4. The symbol "N.A." is used for data not available or doubtful.
