1. INTRODUCTION

International trade is the exchange of goods and services between nations. It enables a nation to specialize in those goods it can produce most cheaply and efficiently. Trade also enables a country to consume more than it would be able to produce if it depended only on its own resources. Moreover, trade enlarges the potential market for the goods of a particular economy. Trade has always been the major force behind the economic relations among nations. The increased international demand for goods translates into greater production and more extensive use of raw materials and labor, which in turn leads to growth in domestic employment. Competition from international trade can also force domestic firms to become more efficient through modernization and innovation. Since the beginnings of international trade, nations have striven to achieve and maintain a favorable balance of trade – that is, to export more than they import.

In view of the vital role international trade plays in the economic development of a country, and the overall responsibility of the Central Statistical Authority (CSA) to provide a convenient statistical reference in all fields of statistics, the Authority found it imperative to resume the publication of data pertaining to Ethiopia's international trade. International trade statistics are a good starting point for market research, as they provide an overview of present imports and exports (expressed in quantities and in values) as well as trends, broken down by product and country. Moreover, analysis of trade flows allows a smooth shift of focus from national markets to regional grouping, or even towards a global view.

For exporters, an analysis of international trade statistics is important in particular, for:

- pre-selecting new export markets (market screening),
- scanning new sources of import supply,
- analyzing trends in international demand and in the target country and,
- assessing competition with exporters or importers from other countries.

For trade promotion organizations, international trade statistics are useful for:

- developing national trade development strategies and programs,
- monitoring national trade performance,
- identifying priority products and markets for special trade promotion activities such as market prospect missions, trade fair participation, and market studies and,
- as an element of trade information services.

Therefore, the purpose of this publication is to assist the user of international trade statistics in making the most of the data at hand. In this respect eight selected tables are presented. The types of data captured among others include: trade balances (export less import), quantity and value of exports by commodity and destination, import of commodities by type, quantity, country of origin and end use. These data are expected to meet most of the demands by users of international trade data. The Harmonized System (HS) trade classification as provided by the Customs Authority is used. As regards valuation, generally imports are valued c.i.f., i.e. the value at which the goods were purchased plus the cost of transportation and insurance. Exports are valued at free on board (f.o.b.) at the frontier of the country. This is the value at which the goods were sold by exporter, including transportation and insurance, to bring the goods onto the transporting vehicle at the frontier of the country.

It is hoped that the publication will meet the growing demand for international trade data by policy makers, entrepreneurs, researchers, and other interested groups.

2. SUMMARY OF THE MAJOR RESULTS

2.1 SUMMARY OF TRADE BALANCE, 1999 – 2000

Table 1 presents data on trade balance for the years 1999 and 2000. As the figures in the table indicate, the country exhibited a negative balance of trade i.e., it had imported more than its exports, throughout the period mentioned above. During this period, both exports and imports and accordingly the balance showed ups and downs. Export values in April (Birr 413.4 million) and June (Birr 450.6 million) and import values in July (Birr 1,274.2 million) and February (Birr 1,144.8 million) were the top ones in 1999 and 2000, respectively. Overall, compared to 1999 export had increased and import decreased in the year 2000, that resulted in a decreased negative trade balance.

2.2 QUANTITY AND VALUE OF IMPORTS BY COMMODITY SECTION, 1999 – 2000

As shown in Table 2, in 1999 the significant portion of exports were concentrated in sections II and VIII, and in the year 2000, in sections II, VIII and XIV. The items were Vegetable products including coffee and raw hides and skins for the year 1999 and vegetable products including coffee, raw hides and skins and precious stones for the year 2000.

Imports were mostly clustered in sections V, VI, XVI, and XVII both for the years 1999 and 2000. These are fuel, chemical products, machinery and mechanical appliances and vehicles, and associated transport equipment. For further detailed description of sections please refer to pages 130 and 131.

2.3 QUANTITY AND VALUE OF MAJOR EXPORT COMMODITIES BY DESTINATION, 1999 – 2000

As the details in table 3 show, in 1999 coffee was the leading export commodity with 63.4 percent share from the total export value, followed by other vegetable products 15.4 percent and sesame seeds 5.4 percent. The major buyers of these products were Germany, Japan and Saudi Arabia for coffee; Djibouti and Somalia for other vegetable products and Egypt and Israel for sesame seeds.

Comparative figures for the year 2000 indicate that coffee was the prime export commodity with 55.9 percent of the total export value, while other vegetable products and sheep or lamb skin leather trailed far behind with 15.1 percent and 6.9 percent of the total export value, respectively. During the stated period, the major destinations for the aforementioned products were Germany, Japan and Saudi Arabia for coffee; Djibouti and Somalia for other vegetable products and Italy, UK and India for sheep or lamb skin leather.

Overall, major export commodities made up 94.6 percent of the total export in the year 1999 and 94.9 percent in 2000. It is worth mentioning here the fact that the country's export as the figures clearly indicate is dependent on few agricultural products and a limited number of markets.

2.4 Trade Balance by Partners, 1999 and 2000

As mentioned earlier, the country exhibited a negative balance of trade in the years 1999 and 2000, amounting to Birr 7,517.1 million and Birr 6,407.5 million, respectively.

As can be seen from the data in Table 4, continent wise, it had a positive trade balance only with Africa to the tune of Birr 133.9 million and Birr 333.8 million in 1999 and 2000, respectively. In 1999, Djibouti, Somalia and Egypt were the major destinations for export, while Morocco, Egypt and Kenya were the leading exporters to the country from the African continent. Similar figures for the year 2000 reveal

that, the same countries as in the year before, namely, Djibouti, Somalia and Egypt were the leading destinations, while Kenya, Egypt and South Africa were the top exporters to the country.

Compared to other continents, Europe remained the principal export market for Ethiopia in both years. From this continent Germany, Italy and France were the first three destinations for the country's exports in 1999 and Germany, Italy and Switzerland in the year 2000. On the other hand, in both years, Italy, Germany and United Kingdom headed the exporters to the country, in that order. The country exhibited a negative trade balance of Birr 3,168 million and Birr 1,690.0 million in 1999 and 2000, with Europe, respectively.

From the American continent USA and Canada were the major partners of Ethiopia both for exports and Imports.

The trade balance with Asia amounted to Birr 3,706.9 million and Birr 4,466.9 million in 1999 and 2000 in favor of imports, respectively. The main destinations of Ethiopia's exports in the continent were Japan, Saudi Arabia and Israel for both years, while Japan, Yemen and China were the top exporters to the country in 1999 and Yemen, Japan and China in 2000 in that order.

Compared to the other continents, Oceania was the smallest market for Ethiopia's exports and imports, with a negative balance of trade in 1999 and 2000. From this continent Australia remains to be the leading import and export market in both years.

2.5 Quantity and Value of Exports and Imports by Commodity Group, Destination and Origin, 1999-2000

Tables 5 and 6 present data on exports and Imports by commodity group, origin and destination for 1999, and 2000 in a more detailed way, and complemented by unit value calculations. However users are advised to use the unit value figures with caution, as they are unit values of heterogeneous products.

2.6 IMPORTS BY END USE, 1999 – 2000

Table 7 presents data on end use of imports. In 1999, 24.7 percent of imports were industrial capital goods, 20.7 percent non-durable consumer goods, 15.4 percent semi-finished products, 12.4 percent durable transport capital goods, 11.1 percent fuel and 11.0 percent durable consumer goods. The remaining 4.7 percent went to raw materials (1.8 percent), agricultural capital goods (0.8 percent), miscellaneous items (0.5 percent) and unspecified items (1.6 percent).

It is worth noting here that in 1999, 20.7 percent (slightly more than one fifth) of total imports constitute non-durable consumer goods. Out of which food cereals and flour and textile fabrics and clothing took 6.0 and 5.2 percent of total imports, respectively. On the other hand, capital goods for agriculture managed only 0.8 percent of total import value.

In the year 2000, 21 percent of imports was industrial capital goods, 20.2 percent fuel, 18.8 percent non-durable consumer goods, 15.9 percent semi-finished products, 10.0 percent transport capital goods, durable consumer goods 9.6 percent, raw materials 1.4 percent, agricultural capital goods 0.8 percent, miscellaneous and unclassified items took the remaining 2.4 percent.

Import of fuel showed a significant increment in the year 2000 Compared to that of 1999. It's share went up by 69.6 percent, i.e, from 11.1 percent of the total imports in the year 1999 to 20.2 percent in 2000. Moreover, petroleum products remain to be the leading import item with 20.1 percent of the total import values followed by heavy weight road motor vehicles 7.9 percent and textile fabrics and clothing 5.6 percent in the year 2000.

2.7 DIRECTION OF TRADE, 1999 – 2000

As can be inferred from Table 8, in the year 1999, 40.1 percent of exports went to Europe, 34.6 percent to Asia, 19.4 percent to Africa, 5.6 percent to America and the remaining 0.3 to Oceania continent. Similarly, in the year 2000, 46.1 percent of exports went to Europe, 30.5 percent to Asia, 19.1 percent to Africa, 4.1 percent to America and the rest 0.2 percent to Oceania. These figures indicate that, Europe was the leading market for Ethiopia's exports in both years, followed by Asia, Africa, America and Oceania.

Europe's share of the total export has grown up by 27.9 percent in the year 2000 compared to that of 1999, i.e., it has increased from 40.1 percent in 1999 to 46.1 percent in 2000. From this continent, Germany was the leading destination for Ethiopia's exports in both years. Moreover, its share has increased from 17.1 percent of the total export in 1999 to 19.6 percent in 2000. Next to Germany, from the continent, Italy was the second largest market for Ethiopia's exports in both years with constant share, i.e. it remained to be 6.7 percent in both years. France and Switzerland were the third destinations in the year 1999 and 2000, respectively. This shows that France's share has declined and Switzerland's increased in the year 2000 against that of 1999.

The share of the second largest importer of Ethiopia's merchandise, i.e. Asia has decreased from 34.6 percent in the year 1999 to 30.5 percent in 2000. From this continent Japan took the lion's share of the total export in both years, followed by Saudi Arabia. However, as a result of the decreased share of the continent both countries share had decreased in the year 2000.

Africa's share almost remains constant in the stated period. From this continent, Djibouti, Somalia and Egypt were the main markets for Ethiopia's exports in the years 1999 and 2000, in that order. Djibouti has imported 11 and 10.7 percent, Somalia 4.5 and 6.1 percent and Egypt 2.6 and 1.3 percent of the total export in the year 1999 and 2000, respectively. Hence, it can be said that Somalia's share has increased, Egypt's decreased and Djibouti's almost the same in the year 2000 compared to that of the year 1999.

The America's continent share was relatively small in both years under discussion. Furthermore, its share was decreased from 5.6 percent in 1999 to 4.1 percent in the year 2000.

The other continent, Oceania remains to be the smallest market for Ethiopia's exports taking only about 0.3 percent and 0.2 percent of the total in the year 1999 and 2000, respectively.

Generally, from all countries, Germany and Japan were the first and the second markets for Ethiopia's exports during the stated period. Saudi Arabia in the year 1999 and Djibouti in the year 2000 were the third markets. Germany took merchandise worth Birr 608.8 million in the year 1999 and 774.6 million in 2000, while Japan bought merchandise worth Birr 458.8 million and 462.2 million in the year 1999 and 2000, respectively. The third market in 1999, Saudi Arabia, imported items worth Birr 408.1 million, and 2000's third market for Ethiopia's exports, Djibouti, bought merchandise worth Birr 422.6 million. From these, it can be concluded that, country wise, Ethiopia's export market was not well distributed.

ANNEX I: DETAILED DESCRIPTION OF SECTIONS

- SECTION I:** LIVE ANIMALS; ANIMAL PRODUCTS
- SECTION II :** VEGETABLE PRODUCTS
- SECTION III:** ANIMAL OR VEGETABLE FATS AND OILS AND THEIR CLEAVAGE PRODUCTS; PREPARED EDIBLE FATS; ANIMAL OR VEGETABLE WAXES
- SECTION IV:** PREPARED FOODSTUFFS; BEVERAGES; SPIRITS AND VINEGAR; TOBACCO AND MANUFACTURED TOBACCO SUBSTITUTES
- SECTION V:** MINERAL PRODUCTS
- SECTION VI:** PRODUCTS OF THE CHEMICAL OR ALLIED INDUSTRIES
- SECTION VII:** PLASTICS AND ARTICLES THEREOF; RUBBER AND ARTICLES THEREOF
- SECTION VIII:** RAW HIDES AND SKINS; LEATHER; FURSKINS AND ARTICLES THEREOF; SADDLERY AND HARNESS; TRAVEL GOODS; HANDBAGS AND SIMILAR CONTAINERS; ARTICLES OF ANIMAL GUT (OTHER THAN SILK-WORK GUT)
- SECTION IX:** WOOD AND ARTICLES OF WOOD; WOOD CHARCOAL; CORK AND ARTICLES OF CORK; MANUFACTURES OF STRAW; OF ESPARTO OR OF OTHER PLAITING MATERIALS; BASKETWARE AND WICKERWORK
- SECTION X:** PULP OF WOOD OR OF OTHER FIBROUS CELLULOSIC MATERIAL; WASTE AND SCRAP OF PAPER OR PAPERBOARD; PAPER AND PAPERBOARD AND ARTICLES THEREOF
- SECTION XI:** TEXTILES AND TEXTILE ARTICLES
- SECTION XII:** FOOTWEAR; HEADGEAR, UMBRELLAS, SUN UMBRELLAS, WALKING-STICKS, SEAT-STICKS, WHIPS, RIDING-CROPS AND PARTS THEREOF; PREPARED FEATHERS AND ARTICLES MADE THEREWITH; ARTIFICIAL FLOWERS; ARTICLES OF HUMAN HAIR

- SECTION XIII:** ARTICLES OF STONE, PLASTER, CEMENT, ASBESTOS, MICA OR SIMILAR MATERIALS; CERAMIC PRODUCTS; GLASS AND GLASSWARE
- SECTION XIV:** NATURAL OR CULTURED PEARLS, PRECIOUS OR SEMI-PRECIOUS STONES, PRECIOUS METALS, METALS CLAD WITH PRECIOUS METAL AND ARTICLES THEREOF; IMITATION JEWELLERY; COIN
- SECTION XV:** BASE METALS AND ARTICLES OF BASE METAL
- SECTION XVI:** MACHINERY AND MECHANICAL APPLIANCES; ELECTRICAL EQUIPMENT; PARTS THEREOF; SOUND RECORDERS AND REPRODUCERS, TELEVISION IMAGE AND SOUND RECORDERS AND REPRODUCERS PARTS AND ACCESSORIES OF SUCH ARTICLES
- SECTION XVII:** VEHICLES, AIRCRAFT, VESSELS AND ASSOCIATED TRANSPORT EQUIPMENT
- SECTION XVIII:** OPTICAL, PHOTOGRAPHIC, CINEMATOGRAPHIC, MEASURING, CHECKING, PRECISION, MEDICAL OR SURGICAL INSTRUMENTS AND APPARATUS; CLOCKS AND WATCHES; MUSICAL INSTRUMENTS; PARTS AND ACCESSORIES THEREOF
- SECTION XIX:** ARMS AND AMMUNITION; PARTS AND ACCESSORIES THEREOF
- SECTION XX:** MISCELLANEOUS MANUFACTURED ARTICLES
- SECTION XXI:** WORKS OF ART, COLLECTORS' PIECES AND ANTIQUES
