Introduction

The Central Statistical Authority has been collecting prices of goods and services in Addis Ababa since March 1965. However, due to increasing demand for the data, the coverage of the survey which was limited only to Addis Ababa was made to include twenty two other urban centers.

Similar to the previous ones, the present report which covers the years 1986 and 1987 consists three sections: Average retail price of goods and services in each of the twenty three urban centers; annual average retail prices in Addis Ababa (1970 - 1987) and retail prices of food, drinks and tobacco collected from European type groceries in Addis Ababa. This report updates Statistical bulletin number 54 of January 1987.

Objectives of the Collection of Retail Prices.

1. To study the level of retail prices;
2. To assess the disparity of prices charged at different distributional levels in each region and between regions;
3. To study changes in the economy;
4. To provide data for national accountants and research workers;
5. To prepare retail price indices;

Scope and Coverage

This report is concerned with the major agricultural and industrial groups including food, drinks, tobacco, household items, clothing, footwear, transportation, communication, medical care, education, recreation, building materials, farm equipments and other goods and services. Retail prices of selected items are collected from the retail outlets in the twenty three urban centers listed below.

1. Addis Ababa
2. Agaro
3. Arba Minch
4. Asmara
5. Assab
6. Assella
7. Awasa
8. Bahir Dar
9. Debre Markos
10. Dessie
11. Dilla
12. Dire Dawa
13. Ghimbi
14. Goba
15. Gondar
16. Harar
17. Jimma
18. Mekelle
19. Mettu
20. Nazereth
21. Negelle Borena
22. Nekemte
23. Shashemene

Definitions

1. Urban Center

An urban center is defined as an area which has a population of at least 2,000 persons and which is normally administered by a municipality. The selected urban centers satisfy at least one of the following conditions;

a) Capital of an administrative region

b) Industrial center

c) Center for trade and commercial activities

2. Retail Price

A retail price is the money cost to the final purchaser of a specified unit of sale. It is inclusive of all sales and excise taxes.

Note

1. In Addis Ababa, Asmara and Makelle retail prices are collected monthly, whereas in the other urban centers because of limited man-power and cost consideration the collection is done quarterly, ie, in March, June, September and December. The survey is conducted for about seventeen days starting on the 13th day of each survey month of European calendar.
2. The annual price in Addis Ababa, Asmara and Mekelle is the average of twelve monthly prices while in the other urban centers it is an average of data collected in the four months of the year.
3. As the method of data collection adopted here is personal interview rather than actual purchase and recording of prices, over or under estimation of prices may occur in some cases.
