PREFACE

In the preparation of long, medium and short term economic plans the availability of statistical data is very fundamental. Moreover, statistical data are important indicators of the level of achievements in social and economic activities in an economy. Bearing this in mind, state owned trading organizations and other organs under the Ministry of Domestic Trade should exert efforts in expanding their range and stock of statistical data and be of significant sources of information for policy makers and planners of the country in general and of the Domestic Trade sector in particular.

Despite the fact that state owned trading organizations, and other organs under the Ministry of Domestic Trade have been individually compiling data on their performances in different ways, it is the second time to provide with such a comprehensive collection in a form of bulletin. This second issue is prepared in both Amharic and English languages. In this issue, some tables from the first issue were omitted, some others revised and updated, and new tables added.

The unreserved suggestions and comments by users of the first issue on the improvement of data collected, content and quality were of great value and accordingly efforts have been made to make the second issue much better. At this juncture, we welcome suggestions and comments for improving the content of the future issues of the bulletin.

Finally, compliments are due to state owned trading organizations and other organs under the Ministry of Domestic Trade for providing relevant data used in the preparation of this bulletin.

1. The first part of the report is a general description of the project and its objectives. This includes a brief overview of the background and the specific goals of the study.

2. The second part of the report is a detailed description of the methodology used in the study. This includes information about the data sources, the research design, and the statistical methods used for data analysis.

Activity	Start	End	Duration	Cost	Resources	Notes
Site Preparation	10/15/2023	11/10/2023	25 days	\$1,500	2 workers	Clearing and grading site.
Foundation Work	11/15/2023	12/10/2023	25 days	\$3,000	3 workers	Excavation and pouring concrete foundation.
Structural Framing	12/15/2023	1/10/2024	25 days	\$4,500	4 workers	Setting up steel beams and joists.
Roofing	1/15/2024	2/10/2024	25 days	\$2,000	2 workers	Installing roof trusses and sheathing.
Interior Finishing	2/15/2024	3/10/2024	25 days	\$3,500	3 workers	Installing drywall, insulation, and electrical.
Exterior Finishing	3/15/2024	4/10/2024	25 days	\$2,500	2 workers	Landscaping and exterior painting.
Final Inspection	4/15/2024	4/15/2024	1 day	\$0	1 worker	Obtaining final approval from city.
Total				\$14,000		

3. The third part of the report is a discussion of the results of the study. This includes a summary of the findings and an analysis of the data. The results show that the project was completed on time and within budget, and that the quality of the work was high.

4. The fourth part of the report is a conclusion and a list of recommendations. The conclusion states that the project was a success and that the objectives were met. The recommendations include suggestions for future projects and for improving the efficiency of the construction process.
