The Selected Urban Center must satisfy at least one of the following conditions.

- a) Industrial center
- b) Center for trading and Commercial activities
- c) Capital Cities of Administrative regions.

Note

1. Retail Prices in Addis Ababa, Asmara and Mekelle are Collected monthly while in the other selected urban centers due to shortage of man power and cost consideration the retail prices are only collected in March, June, September and December. The survey starts in the 13th day of a European calendar and lasts for about 17 days.
2. Additional agricultural and industrial products are included in the present report.
3. Finally since the method of data collection is simply by asking the prices of the items and not actually buying, it may result in some instances in exaggeration or under estimation of prices specially in industrial products.
