13. Objectives of the Census

The census was planned to meet the following objectives.

1. to obtain the number economic establishments and their distribution in the city;

I. Introduction

The Census of Economic Establishments in Addis Ababa was initiated by a directive issued by the Office of the Council of Ministers in October 12, 1983 (Tikemt 1, 1976 E.C.) which set up a high level Ministerial Committee to determine the content, coordinate the work and guide the overall activities of the census. In order to expedite the preparation and implementation of the census work a coordinating committee chaired by the Central Statistical Authority, then the Central Statistical Office, was established. The committee constituted representatives from relevant ministries and mass organizations which are direct beneficiaries of the census result. The census was conducted by the Central Statistical Authority in November 1983 (Hidar 1976 E.C.) and covered all economic establishments engaged in agriculture, manufacturing, wholesaling, retailing and provision of services.

The questionnaire used in the Census was designed in such a way as to collect information on name, address and nationality of owner of establishment, registered name, legal form, capital, type of licence, kind of establishment, number of persons engaged and income. The present report is the second in the series of results published on the census. The first, "Directory of Economic Establishments in Addis Ababa by Higher Urban Dwellers' Association," was issued in June 1987.

II. Objectives of the Census

The census was planned to meet the following objectives.

1. to obtain the number economic establishments and their distribution in the city;

2. to assess the relationship between the number of economic units and the production and availability of raw materials, etc.;

3. to study the share of government and mass organizations in the economic activity;

4. to issue a policy for controlling illegal trade such as black marketing etc.;

5. to systematize the issuance of licences;

6. to assess the total revenue of the government from issuing and renewing of licences;

7. to classify economic establishments by type of activity and prepare a directory of all economic establishments in the city;

8. to obtain a frame for future statistical surveys in this field;

III. Scope and Coverage

As mentioned in the introductory part, the census covered almost all economic establishments in Addis Ababa by November 1983. Excluded were those which sell or produce in open markets, hawkers, pedlars and public establishments.

2. to assess the relationship between the number of economic units and the production and availability of raw materials, etc.;
3. to study the share of government and mass organizations in the economic activity;
4. to issue a policy for controlling illegal trade such as black marketing etc.;
5. to systematize the issuance of licences;
6. to assess the total revenue of the government from issuing and renewing of licences;
7. to classify economic establishments by type of activity and prepare a directory of all economic establishments in the city;
8. to obtain a frame for future statistical surveys in this field;

III. Scope and Coverage

As mentioned in the introductory part, the census covered almost all economic establishments in Addis Ababa by November 1983. Excluded were those which sell or produce in open markets, hawkers, pedlars and public establishments.

The establishments covered fall under one of the following main headings.

- Agriculture, Hunting, Forestry and Fishing
- Mining and Quarrying
- Manufacturing
- Electricity, Gas and Water
- Construction
- Export and Import Trade
- Wholesale and Retail Trade; Restaurants and Hotels; 'Tej', 'Tella' and 'Katikalla' Trade
- Transport and related services
- Bank, Insurance and Business Services
- Community, Social, Personal and Household Services

IV. Method of Data Collection

The information on each establishment was obtained by interviewing the owner of the establishment or the responsible person on the spot. Thus, it should be borne in mind that some reporting errors are unavoidable. Especially under-reporting of income and capital usually occur in surveys of this kind. Some of the data obtained from the establishments had to be rejected at the processing stage due to certain inconsistencies.

V. Terms and Concepts used

1. Household:- All persons, whether related or not who normally live together in the same house or closely related premises and who take food from the same kitchen are defined to constitute a household.

2. Member of household:- All persons constituting the household are called members of the household.

The following persons were considered as members of household.

- a) All persons who were members of the household and who were absent at the time of the survey including those who were expected to be absent from the household for less than six months.
- b) All guests who stayed with the household for six months and above or who were expected to stay for six months and above.
- c) Servants who lived with the household.

3. Economic establishment:- An economic establishment is defined as an economic unit operating under a single ownership or control, i.e., under a single legal entity, which is engaged in one or predominantly one, kind of economic activity (manufacturing, trade and services) at a single physical location.

4. Wholesale trade:- is defined as the re-sale (sale without transformation) of new and used goods to retailers, producers, business organizations, other wholesalers and professional users.

5. Retail trade:- is defined as the re-sale (sale without transformation) of new and used goods to the general public, for personal or household consumption.

6. Service trade:- establishments which serve households or other business organizations. These are:-

- a) Hotels:- establishments rendering a combined service of rooming, food and drinks on a fee basis.

b) Restaurants:- establishments selling food and drinks.

c) Rooming houses:- establishments engaged in renting bedrooms.

This service includes snacks for customers.

d) Snack bars:- establishments selling soft drinks, tea, coffee, juice, sandwiches, etc. to the general public.

e) Motel:- is a hotel connected to fuel stations on main roads outside a city.

f) Lodge:- is a hotel located at national park areas equipped with camping facilities for use by tourists.

g) Bars:- establishments selling alcohols, wines, beer, soft drinks, carbonated water and fruits and vegetable juices, coffee, tea, etc. to the general public.

7. Manufacturing:- is defined as the mechanical or chemical transformation of inorganic or organic substances into new products whether the work is done by power-driven machines or by hand.

8. Legal Form of Organizations:- refers to the classification of economic establishments by type of ownership. These are defined as follows.

a) Privately owned:- establishments which are owned and controlled by an individual.

b) Partnership:- establishments owned and operated by more than one person with unlimited liability.

- c) Share Company:- an establishment formed by an agreement made between at least five or more persons with limited liability. The shares are transferable.
- d) Private limited company:- an establishment formed by an agreement between two or more persons but not exceeding fifty, with limited liability. These shares are not transferable except with the consent of three-fourth of the members.
- e) Publicly owned:- an establishment owned and controlled by the state.
- f) Cooperatives:- Producers' and service-rendering organizations such as 'Kebele' shops which constitute a group of persons or households who buy, sell or produce for mutual benefits.
9. Total capital of the establishments:- includes the total money value of all fixed and non-fixed assets of the establishment on the survey date. Fixed assets cover all goods new or used that have a productive life of more than a year (buildings, vehicles, tables, chairs, shelves, etc.) while non-fixed assets are those non-durable items, manufactured articles or articles on the process of manufacturing and articles for sale, etc.
10. Income:- refers to the amount received in cash and in-kind by the owner of the establishment and all household members (i.e. owner's spouse, children and other relatives) from business, allowances (housing, car etc.), wages and salaries, pension and other sources during the 12 months preceding the survey date.

VI. Note on Tables

This report is published in two volumes and contains nine summary tables and other detailed ones, based on classification related to International Standard Classification of all Economic Activities, consisting information on number of establishments, persons engaged by kind of establishment, capital, sales, purchases, value of shares, legal form of organization and distribution of establishments by Higher Urban Dwellers' Associations. In this volume (Volume 2) data on capital, percentage distribution of sales and purchases, number and percentage value of shares in other establishments and income of household by source are included. Note, however, that while every effort had been made to collect all information on the spot, some of the establishments were not willing to provide certain information due to various reasons. Therefore, the total number of establishments refer, only, to those reporting establishments and not to the total number of establishments which was 47,616, as stated in the Directory which is available for reference at the library of the Central Statistical Authority.

In some cases the total, row and column, percentage may not add up to 100 due to rounding.
