Introduction

As stated in earlier reports, the Central Statistical Authority launched the Rural Integrated Household Survey Programme (RIHSP) in 1980 with the objective of conducting of surveys on a wide range of subjects in rural areas. As part of this programme the authority conducts monthly survey of retail and producers' prices in the rural area.

The collection of rural prices started in May 1981 in selected Farmer's Association Areas in 12 regions, excluding Tigray and Eritrea.

The present report is wider in scope than the earlier ones as it incorporates as many commodities as possible, which are widely consumed in the rural area. It provides monthly average prices of goods and services for the period September 1987 to August 1988 (1980 E.C.).

This fifth issue updates statistical bulletin number 64 of September 1988. Earlier issues on the same subject are Statistical Bulletin Nos. 37, 45, 57 and 64.

Objectives

Objectives of the collection of retail prices in rural areas are to:-

1. study the level of retail prices;
2. study the disparities between prices at various distribution levels;
3. study changes in the economy;
4. provide data for national accounting and preparation of retail prices index for rural areas.

Scope and Coverage

The scope and coverage of the survey are constantly under review and necessary improvements are effected from year to year in the light of experience of the staff and in an effort to incorporate commodities mostly consumed in the area.
